

# IVCM Vanguard Conservative Index Fund

## Fund Update

Quarter Ended 31 March 2019

This fund update was first made publicly available on 16 April 2019

### What is the purpose of this update?

This document tells you how the IVCM Vanguard Conservative Index Fund (**Fund**) has performed and what fees were charged. The document will help you to compare the Fund with other funds. Lifetime Asset Management Limited (**Lifetime**) prepared this up date in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this Fund

Australian dollars (**AUD**) denominated fund employing a passive management strategy invested 30% in growth assets (International equities) and 70% in income assets (international fixed interest and cash and cash equivalents). The Fund's investment objective seeks to track a composite index (before annual fund charge and tax), comprising 12% S&P/ASX 300 (AUD), 18% MSCI World ex-Australia net dividends (AUD), 60% Bloomberg Barclays Global Aggregate Float Adjusted Index and 10% Bloomberg AusBond Bank Bill Index.

|                           |                 |
|---------------------------|-----------------|
| Total value of the Fund   | AUD \$1,317,355 |
| Number of investors       | 9               |
| The date the Fund started | 1 August 2017   |

### What are the risks of investing?

#### *Risk indicator for the IVCM Vanguard Conservative Index Fund*

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-kickstarter](https://sorted.org.nz/tools/investor-kickstarter)

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on market index data for the period 1 April 2014 to 31 July 2017 and actual returns for the period 1 August 2017 to 31 March 2019. As a result of this, the risk indicator may provide a less reliable indicator of the potential future volatility of the Fund. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this Fund.

## How has the Fund performed?

|  | Past year |
|--|-----------|
| <b>Annual return</b><br>(after deductions for charges and tax)         | 5.47%     |
| <b>Annual return</b><br>(after deductions for charges but before tax)  | 6.38%     |
| Market index annual return (reflects no deduction for charges and tax) | 6.68%     |

The market index annual return for the Fund is a composite index, calculated using 12% S&P/ASX 300 (AUD), 18% MSCI World ex-Australia net dividends (AUD), 60% Bloomberg Barclays Global Aggregate Float Adjusted Index and 10% Bloomberg AusBond Bank Bill Index. To the extent that imputation credits are available, they are included in the market index.

See the Statement of Investment Policy and Objectives (**SIPO**) for details of the Fund's benchmark asset allocation and the asset class indices.

Additional information about the market index is available in the 'Market Index' document on the Disclose Register [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz) (search for 'IVCM (NZ) PIE Superannuation Fund').

*Annual return graph*

This shows the return after fund charges and tax for each year ending 31 March since the Fund started. The last bar shows the average annual return since the Fund started, up to 31 March 2019.

**Important:** This does not tell you how the Fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (**PIR**) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Fund are charged fund charges. Based on the PDS dated 21 December 2018 these are expected to be:

|  | % of net asset value       |
|--|----------------------------|
| <b>Total fund charges</b>                          | <b>1.38%</b>               |
| Which are made up of:                              |                            |
| <b>Total management and administration charges</b> | <b>1.38%</b>               |
| <i>Including:</i>                                  |                            |
| • Manager's basic fee                              | 0.69%                      |
| • Other management and administration charges      | 0.69%                      |
| <b>Total performance-based fees*</b>               | <b>0.00%</b>               |
| Other charges                                      | Dollar amount per investor |
|  | AUD \$0.00                 |

\* There are no performance fees charged by the Fund.

All fees include GST (if applicable).

Investors may also be charged individual action fees for specific actions or decisions (for example, an establishment fee). See the PDS for more information about these fees.

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Ben had AUD \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Ben received a return after fund charges were deducted of AUD \$638 (that is 6.38% of his initial AUD \$10,000). Ben also paid AUD \$0.00 in other charges. This gives Ben a total return after tax of AUD \$547 for the period.

## What does the Fund invest in?

### Actual investment mix

This shows the types of assets that the Fund invests in.

### Target investment mix

This shows the mix of assets that the Fund generally intends to invest in.

### Top 10 investments

| Name                             | Percentage of net assets of the Fund | Type             | Country   | Credit rating (if applicable) |
|----------------------------------|--------------------------------------|------------------|-----------|-------------------------------|
| Vanguard Conservative Index Fund | 100.00%                              | Diversified fund | Australia | -                             |

The top 10 investments make up 100.00% of the Fund.

### Currency hedging

The base currency of the Fund and Underlying Fund is Australian dollars. No currency hedging is performed at the Fund level and the Fund is not hedged to New Zealand dollars. Two of the investment funds that the underlying fund invest in are hedged back to Australian dollars by the investment manager of the Underlying Fund. The remainder of the investment funds that the Underlying Fund are invested in are Australian dollar denominated investment funds or investment funds that are not hedged. The two investment funds that the Underlying Fund invests in that are hedged are:

| Underlying investment fund  | Benchmark hedging level |
|---|-------------------------|
| Vanguard International Shares Index Fund (Hedged) - AUD Class (Wholesale) | 100.00%                 |
| Vanguard Global Aggregate Bond Index Fund (Hedged)                        | 100.00%                 |

Lifetime has made reasonable endeavours to obtain all relevant information regarding currency hedging, but due to a lack of information (i.e. the underlying investment manager does not publish foreign hedging levels) Lifetime is not able to report the foreign hedging level of the two investment funds the Underlying Fund invests in.

Additional information about currency hedging is available in the 'SIPO' on the Scheme Register at [disclose-register.companiesoffice.govt.nz](https://disclose-register.companiesoffice.govt.nz) (search for 'IVCM (NZ) PIE Superannuation Fund').

## Key personnel
