

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the market index data for the period 1 July 2013 to 30 September 2017 and actual returns for the period 1 October 2017 to 30 June 2018. As a result of this, the risk indicator may provide a less reliable indicator of the potential future volatility of the Fund. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this Fund.

How has the Fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return (reflects no deduction for charges and tax)	2.59%

The market index annual return is the Bloomberg AusBond Bank Bill Index (hedged to New Zealand dollars). The market index has not changed since the Fund's inception. To the extent that imputation or franking credits are available, they are included in the market index.

Additional information about the market index is available in the 'Market Index Document' on the Offer Register at companiesoffice.govt.nz/disclose (search for the 'IVCM (NZ) Superannuation Fund').

What fees are investors charged?

Investors in the Fund are charged fund charges. Based on the PDS dated 1 August 2017 these are expected to be:

	% of net asset value
Total fund charges	1.67%
Which are made up of:	
Total management and administration charges	1.67%
<i>Including:</i>	
• Manager's basic fee	0.90%
• Other management and administration charges	0.77%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor
	\$0.00

All fees exclude GST (if applicable) and there are no performance fees charged by the Fund.

Investors may also be charged individual action fees for specific actions or decisions (for example, a termination fee). See the PDS for more information about these fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

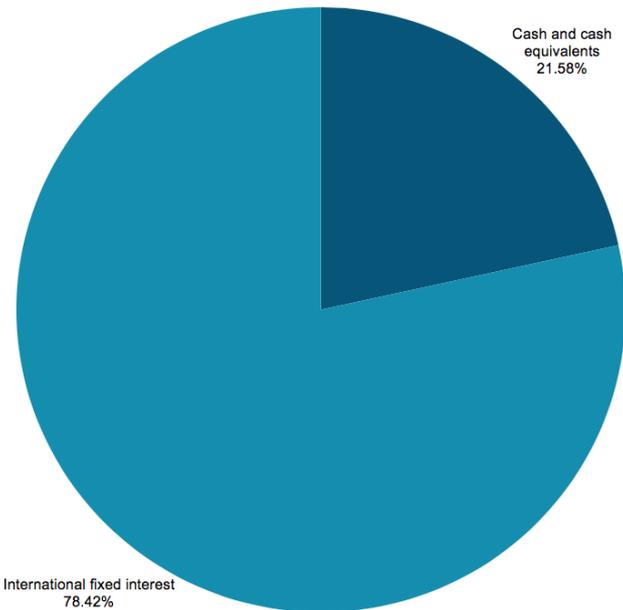

Example of how this applies to an investor¹

Ben had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Ben received a return after fund charges were deducted of \$259 (that is 2.59% of his initial \$10,000). Ben also paid \$0.00 in other charges. This gives Ben a total return after tax of \$259 for the period.

What does the Fund invest in?

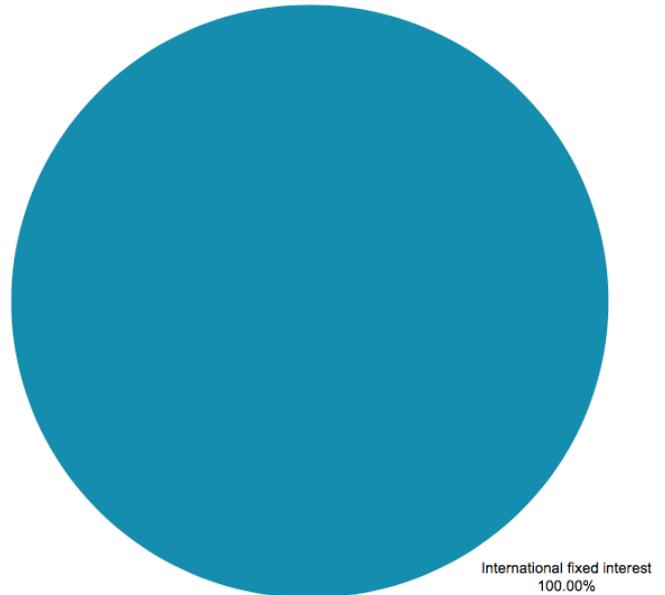

Actual investment mix

This shows the types of assets that the Fund invests in.

Target investment mix

This shows the mix of assets that the Fund generally intends to invest in.

Top 10 investments

Name	Percentage of net assets of the Fund	Type	Country	Credit rating (if applicable)
Bentham Wholesale Global Income Fund NZD	100.00%	Diversified fund	Australia	-

The top 10 investments make up 100.00% of the Fund.

Currency hedging

The base currency of the Fund is New Zealand dollars and the base currency of the Underlying Fund is Australian dollars. No currency hedging is performed at the Fund level but the underlying investment manager 100% hedges the Underlying Fund to New Zealand dollars. Lifetime has made reasonable endeavors to obtain all relevant information regarding currency hedging, but due to a lack of information (i.e. the underlying investment manager does not publish foreign hedging levels) Lifetime is not able to report the foreign hedging level of the underlying funds.

Additional information about currency hedging is available in the 'SIPO' on the Scheme Register at companiesoffice.govt.nz/disclose (search for 'IVCM (NZ) PIE Superannuation Fund').
