▼ 2 Controls on conflict of interests

The Financial Market Conduct Act 2013 (**FMCA**) imposes statutory controls on conflicts of interest:

- A related party transaction may only be done in compliance with the FMCA which includes either us providing a certificate to Public Trust confirming matters required in accordance with the FMCA or if we obtain Public Trust's consent on the basis that it is in the best interests of Members;
- As manager of the Scheme, we are subject to statutory duties in the performance of our functions as manager, including the requirement to act honestly and in the best interests of members;
- Where we contract out our functions to other parties, such as administration management of the Scheme's investment options (funds) we must ensure the persons to whom we contract those functions perform them to the same standard and subject to the same duties and restrictions as if we were performing them ourselves. These include the statutory duties referred to above. We must also monitor the performance of that function;
- The investment managers of the underlying funds into which the fund invests must comply with a professional standard of care i.e. in exercising any powers, or performing any duties as investment manager, they must exercise the care, diligence, and skill that a prudent person engaged in the profession of investment management would exercise in the same circumstances.
