What are the risks of investing?

Risk indicator for the IVCM Vanguard LifeStrategy 60% Equity Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **sorted.org.nz/tools/investor-kickstarter**

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns for the period 1 July 2020 to 30 June 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this Fund.

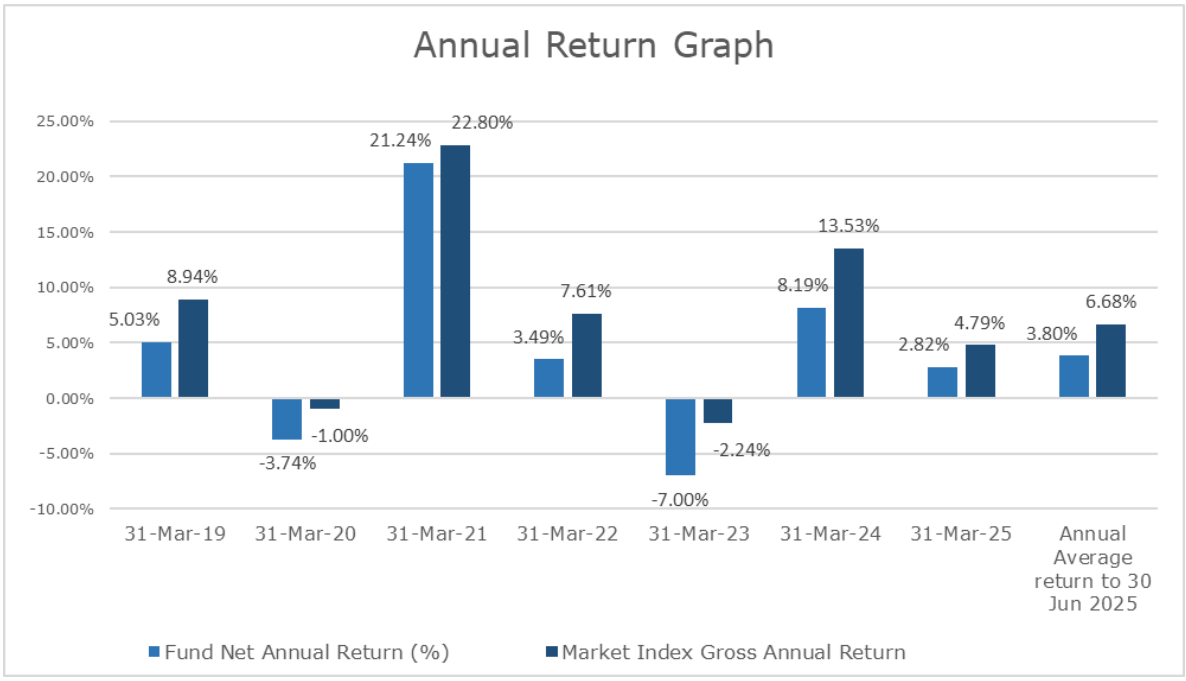
How has the Fund performed?[1]

	Average over past 5 years	Past year
Annual return[2] (after deductions for charges and tax)	3.59%	3.88%
Annual return (after deductions for charges but before tax)	5.17%	5.33%
Market index annual return (reflects no deduction for charges and tax)	6.67%	6.84%

The composite index return is the strategic asset allocation-weighted aggregate performance of relevant market and peer group indices.

See the Statement of Investment Policy and Objectives (**SIPO**) for details of the Fund's benchmark asset allocation and the asset class indices.

Additional information about the market index is available in the 'Market Index' document on the Offer Register at **disclose-register.companiesoffice.govt.nz** (search for 'IVCM (NZ) PIE Superannuation Fund').



This shows the return after fund charges and tax for each year ending 31 March since the Fund started. The last bar shows the average annual return since the Fund started, up to 30 June 2025.

Important: This does not tell you how the Fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (**PIR**) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Fund are charged fund charges. For the year to 30 September 2024 these are estimated to be:

	% of net asset value
Total fund charges	**1.31%**
Which are made up of:	
Total management and administration charges	**1.31%**
Including:	
• Manager's basic fee	0.69%
• Other management and administration charges	0.62%
Total performance-based fees*	**0.00%**
Other charges	**Dollar amount per investor**
	£0.00

* There are no performance fees charged by the Fund.

All fees include GST (if applicable).

Investors may also be charged individual action fees for specific actions or decisions (for example, an establishment fee). See the PDS for more information about these fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor[2]

Ben had £10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Ben received a return after fund charges were deducted of £533 (that is 5.33% of his initial £10,000). Ben also paid £0.00 in other charges. This gives Ben a return after tax of £388 for the year.
